

Ethernet

With a choice of synchronous speeds from 10Mbps up to the full 1Gbps, Ethernet has the scalability to evolve with you. Seamless migration, UK based customer service and the option of a fully managed service, complete the package for this truly business grade service.

Ideal for:

Businesses that need high-grade connectivity

Companies that rely on streaming and broadcasting services

Businesses looking for an alternative to leased lines

Organisations looking to build and extend networks and infrastructure

The connectivity you need

Delivered over our fully fibre optic, Next Generation Network, Ethernet has the reliable bandwidth for high-end business grade connectivity. It supports technologies like VoIP and cloud-based services so you can access high quality voice, data and video as quickly as you need to.

How will our Ethernet solution benefit you and your customers?

Scalable to manage costs

With a choice of speeds from 10Mbps to 1Gbps and unlimited usage, our Ethernet delivers the scalability you need to stay ahead of the curve as your requirements evolve. And you only pay for what you need.

Upgrading is easy

Getting on to the TalkTalk's Next Generation Network is easy thanks to our dedicated migration and installation team. We fully manage all practical aspects at your premises, ensuring minimal disruption to your day-to-day business. Ethernet is fully go-live tested during the installation process.

Technical expertise

Our dedicated account team have the experience understand your business strategy and maximise the value of your connectivity. A consultative process ensures you get the most advantageous and cost effective solution for you.

Flexible and scalable

Ethernet provides a secure multisite service as part of IPVPN and the flexibility to allocate bandwidth where it is needed. So you can enjoy business grade service that is more than flexible and enough to deliver the performance you need - now and into the future.

About TalkTalk Business

TalkTalk Business is one of the UK's fastest growing B2B telecoms providers, offering a full range of business-grade communications products and services, spanning internet access, data, voice and mobile. Our mission is to deliver what matters most to our 180,000+ business and public sector customers, and 800+ Partners, through consistently reliable, easy-to-use, innovative, great value solutions.

TalkTalk Business is truly innovative, looking for ways to disrupt the market and deliver value back to our customers. Following an investment of over £600m, we operate one of Britain's largest Next Generation Networks, with 95% coverage across the UK and more than 3,000 enabled exchanges for Ethernet, EFM and Business Broadband.

With over 20 years' experience providing support to customers - from national retailers to sole traders - and with future-proof, scalable technology, and standout service, TalkTalk Business aims to empower you to connect to the things that matter most: your customers, your employees and your suppliers.
