

Business Numbers

Business Numbers from TalkTalk Business can help you to enhance your portfolio with a huge choice in numbers. With Freephone, revenue sharing, Geofix and memorable numbers you can create differentiating propositions to help maximise revenue. Because of the scale of our Next Generation Network, finding, selecting and deploying numbers is quick and simple and we have access to millions. With up-sell and cross-sell potential across complementary solutions, such as Hosted Contact Centre and IVR, you can grow your share of wallet even further.

Ideal for:

Businesses that need flexibility on how they handle inbound calls

Companies that would like the ability to add extra inbound call services, such as IVR, call forwarding and call statistics

Organisations that want to generate revenue from their business numbers

Grow your business

Business Numbers enable you to offer something different that will give you stand out and grow your business in a competitive market. You can benefit from a recurring revenue stream with unique up-sell and cross-sell opportunities by offering a wide choice of competitively priced Business Numbers.

No fee, maximum margin

Unlike other providers, we don't charge for Business Numbers so you can reduce overheads and maximise margins. You can also profit from revenue-share numbers that give you a share of the margin on every number you sell.

How will our Business Numbers solution benefit you and your business?

Why TalkTalk Business?

TalkTalk Business is one of the UK's fastest growing B2B telecoms providers, offering a full range of business-grade communications products and services, spanning internet access, data, voice and mobile. Our mission is to deliver what matters most to our 180,000+ business and public sector customers, and 800+ Partners, through consistently reliable, easy-to-use, innovative, great value solutions.

TalkTalk Business is truly innovative, looking for ways to disrupt the market and deliver value back to our customers. Following an investment of over £600m, we operate one of Britain's largest Next Generation Networks, with 95% coverage across the UK and more than 3,000 enabled exchanges for Ethernet, EFM and Business Broadband.

With over 20 years' experience providing support to customers - from national retailers to sole traders - and with future-proof, scalable technology, and standout service, TalkTalk Business aims to empower you to connect to the things that matter most: your customers, your employees and your suppliers.

Expert advice

We'll help you negotiate the complexity of finding new numbers from the vast range on offer. Our advisors will guide you through the options to find a number that's right for your customers' business objectives, usage and budget. So you can provide a solution with the highest call reliability and quality without wasting your valuable time and resources.

A wide choice of numbers

We have a huge choice of competitively priced numbers to choose from. 0800 and 0808 Non-Geographic Numbers are free to callers (except mobiles). 0844 0871 revenue-sharing numbers provide a revenue stream to offset costs, with the option of premium rated numbers for higher value services. Geofix numbers can imply your customers have a local presence or prestigious address. And easy-to-remember numbers offer one national point of contact with call statistics to enhance call handling.

Easy to migrate

By making it easy to bring existing inbound numbers over to our Next Generation network we can help you maintain business continuity for your customers. So you can offer them competitive call charges and a state-of-the-art solution without any fuss or upheaval. We also have millions of new numbers to choose from, including large blocks of sequential numbers.

Easy to manage

With TalkTalk Business, self-serve comes as standard. You can use our simple online interface to manage Business Numbers and associated services, making changes within minutes for quick and easy configuration. You also have the option to give access to your customers so they can self-manage parts of their own service.

Increase your share of wallet

Complementary services such as Interactive Voice Response (IVR) and Hosted Contact Centre solutions are a compelling addition to your portfolio. They're also a great way to grow revenue with feature-rich services that will enable your customers to handle calls even more effectively.
