

# International Numbers

Powered by tIPicall

Make it easier for your international customers to reach you by using our cost efficient International Numbers service.

International Numbers enable UK organisations to present themselves as being international by utilising the local numbers of a country.

A UK company can take either freephone or local landline numbers in over 90 countries and have inbound calls diverted to any existing phone number (including UK and international landlines or mobiles).

International Numbers offers convenience and credibility for your international customers by using toll-free or geographic numbers they will recognise.

# How will our International Numbers benefit you and your business?

## Pretend to be French, Australian or Chinese

International Numbers from TalkTalk Business offers international toll free numbers in over 110 countries and local/geographic numbers in over 90 countries reaching 4,000 cities. This allows UK businesses to present themselves as being local in other countries, sometimes to a city level with calls charged at local rate or freephone to the caller.

## Great Value for any Business

Great international inbound rates make this a cost-effective way to create an international appearance that is affordable for organisations ranging from SME's to Enterprise. 30 day rolling contracts also provide maximum flexibility.

## Simplicity and control

Despite the wide and varied range of countries, TalkTalk Business provides a simple tariff structure for international ITFN, UIFN and geographic numbers. Customers also benefit from free disaster recovery.

## Trusted Expert

International Numbers is fully integrated into TalkTalk Business' UK SIP Core. We have a proven heritage with International SIP services, strengthened by our acquisition of tIPicall.

## About TalkTalk Business & tIPicall

TalkTalk Business is one of the UK's fastest growing B2B telecoms providers, offering a full range of business-grade communications products and services, spanning internet access, data, voice and mobile. Our mission is to deliver what matters most to our 180,000+ business and public sector customers, and 800+ Partners, through consistently reliable, easy-to-use, innovative, great value solutions.

TalkTalk Business is truly innovative, looking for ways to disrupt the market and deliver value back to our customers. Following an investment of over £600m, we operate one of Britain's largest Next Generation Networks, with 95% coverage across the UK and more than 3,000 enabled exchanges for Ethernet, EFM and Business Broadband.

With over 20 years' experience providing support to customers - from national retailers to sole traders - and with future-proof, scalable technology, and standout service, TalkTalk Business aims to empower you to connect to the things that matter most: your customers, your employees and your suppliers.

tIPicall are proven specialists in SIP with a dedicated team of experts. TalkTalk Business and tIPicall both have innovation at their core and together, deliver market leading Next Generation Voice services.
